Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

Robert L. Nasser
Primary Examiner
Art Unit: 3736

This paper was originally mailed to the wrong address. The examiner is remailing on 8/10/2005 to the correct address.

Newly submitted claims 17-26 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The inventions (claims 1-16 group I and claims 17-26 group II) are related as combination/subcombination under the restriction rules, since the current claims recite more details of the housing (subcombination) but do not recite the detection device in the detection cavity.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 17-26 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The reply filed on 7/19/2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): There are no claims drawn to the originally presented invention. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Art Unit: 3736

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is (703) 308-3251. The examiner can normally be reached on Mon-Fri, variable hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on (703) 308-3130. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
